Introduction

For a long time, the focus in industry and related fields was on 'hard' skills. These skills were more job-specific and were actually related to production. However, in the field of employment, the employers today are looking for the candidate who have mastered the soft skills and have had professional training in personality development. Today, achieving all-round development requires not only technical skills but also soft skills, which prepare the candidates for the job market in the new global order. Development of soft skills and personality is becoming increasingly important as there is intense competition for the posts available. It is now well-established that many students who otherwise perform well in the traditional examination are very deficient in communication skills. The objective of this course is to train these students in soft skills and develop their personalities in order to succeed in their career.

Between tomorrows dream and yesterdays regret is today's opportunity and it is our earnest endeavour to deliver a state of the art programme specifically geared and designed to take Viswajyothi College of Engineering students to the pinnacle of excellence.

U R SOLUTIONS team of professionals has successfully conducted Training Programs in many institutions of repute across India.

We are confident that our vast experience, know how and leadership will provide the right impetus to drive the program and also guarantee visible improvement in each and every student.

AutoCAD - 2D Drafting Course for Civil Engineering Students

Course description

This course is designed to provide students with a comprehensive understanding of AutoCAD 2D drafting. The course covers the fundamentals of AutoCAD, including the user interface, command line, and basic drawing tools. Students will learn how to create and modify 2D drawings, including lines, circles, arcs, and text. The course also covers advanced topics such as dimensioning, hatching, and plotting. By the end of the course, students will be able to create professional 2D drawings using AutoCAD.

Course duration.

Who should attend?

This course is suitable for students who are interested in learning AutoCAD 2D drafting.

Pre-requisites

Students should have a basic understanding of computer graphics and drafting principles.

National Institute of Securities Markets (NISM) Certification Examination for Mutual Fund Distributors.

About the Certification Examination for Mutual Fund Distributors

The examination seeks to create a common minimum knowledge benchmark for all persons involved in selling and distributing mutual funds including:

- ☐ Individual Mutual Fund Distributors
- ☐ Employees of organizations engaged in sales and distribution of Mutual Funds
- ☐ Employees of Asset Management Companies especially persons engaged in sales and distribution of Mutual Funds

The certification aims to enhance the quality of sales, distribution and related support services in the mutual fund industry.

Examination Objectives

On successful completion of the examination, the candidate should:

- ☐ Know the basics of mutual funds, their role and structure, different kinds of mutual fund schemes and their features.
- ☐ Understand how mutual funds are distributed in the market-place, how schemes are to be evaluated, and how suitable products and services can be recommended to investors and prospective investors in the market.
- ☐ Get oriented to the legalities, accounting, valuation and taxation aspects underlying mutual funds and their distribution.
- ☐ Get acquainted with financial planning as an approach to investing in mutual funds, and an aid for advisors to develop long term relationships with their clients.

Course Duration: 30 hours

Course Assessment Structure

The examination consists of 100 questions of 1 mark each and should be completed in 2 hours. The passing score for the examination is 50 percent. There shall be no negative marking.

Course Contents

CHAPTER 1: CONCEPT AND ROLE OF A MUTUAL FUND

CHAPTER 2: FUND STRUCTURE AND CONSTITUENTS

CHAPTER 3: LEGAL AND REGULATORY ENVIRONMENT

CHAPTER 4: OFFER DOCUMENT

CHAPTER 5: FUND DISTRIBUTION AND CHANNEL MANAGEMENT PRACTICES

CHAPTER 6: ACCOUNTING, VALUATION AND TAXATION

CHAPTER 7: INVESTOR SERVICES

CHAPTER 8: RETURN, RISK AND PERFORMANCE OF FUNDS

CHAPTER 10: SELECTING THE RIGHT INVESTMENT PRODUCTS FOR INVESTORS

CHAPTER 11: HELPING INVESTORS WITH FINANCIAL PLANNING

CHAPTER 12: RECOMMENDING MODEL PORTFOLIOS AND FINANCIAL PLANS

Please provide your suggestions to help us improve the program
1. What did you like best about this workshop experience? <i>The workshop content was truly effective and just what we truly required. It included each of us into the sessions. It was truly effective.</i>
2. What are some of the personal insights you will take away for practice in your college? <i>We have to stop for wasting our life for the things which will give us to short term happiness and start working for the joy & peace of heart for long term</i>
3. Which part(s) of the program was most valuable for you? <i>Each of the sessions were valuable as they covered different topics. It gave most of the things required in our coming life.</i>
4. What are your three specific suggestions for improving the soft skills program? <i>Actually, it's quite ^{good} but I think :-</i> i) for communication, you could include some more practice sessions. ii) It's nice to to have it in small groups rather than big ones. <i>(but we are lucky to have that...)</i>

Training Summary and analysis Report of 2016 – 2017

STAAD is the abbreviation for Structural Analysis and Design. STAAD.Pro is one of the popular software that is used for analysing & designing structures like – buildings, towers, bridges, industrial, transportation and utility structures. Designs may include any building structures like tunnels, culverts, bridges, piles, petrochemical plants; and building materials like timber, concrete, steel, cold-formed steel, and aluminium.

Objective

- Object-oriented instinctive 2D/3D graphic model generation
- Generate graphics/text input.
- To achieve user-specified design parameters to customize a design.

Analysis

The Technical Training on STAADPro was conducted for the students of Civil Engineering in the Academic Year 2016 - 2017. The Training was planned and executed for 48 hours .The training focused on the FEM analysis and physical modelling.

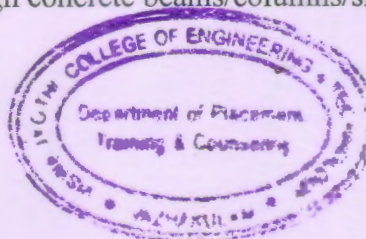

The Students are evaluated based on the Skill set ,These Groups are trained based on the ability of the groups, Intensive training is given to the weaker student so they can perform the same as the other batches.

The Training is conducted from 4th& 5th,11 to 15th &19th July 2016 With 37 Registered students,and all are eligible for certification.
