### ABOUT THE DEPARTMENT OF COUNSELLING

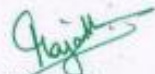

This is to give a nutshell of the Department of Counselling at Viswajyothi College of Engineering and Technology, Vazhakulam. Every year we give Orientation Classes on Ethics and Human Values to first year Engineering students in the first semester. During this class we introduce the counselling sessions of VJCET.

Students are encouraged to come for individual counselling as per their need and availability. Mostly free times are set apart for counselling so that their academic classes are not very much affected by it. Also in a dire need students are permitted to seek counselling as it is very important for their psychological well-being and integral psycho-social development. Students come for counselling either voluntarily or when they are directed by Principal, HOD or the student tutor. As they come for counselling we listen to them, make a rapport and data are collected in the preliminary session itself. Many students follow the directives and do punctual in follow-up sessions. Orientation classes are a support for the students to come for counselling and get timely assistance to solve their issues and perform better academically.

We collect two different data, one is more personal in nature which is confidential and kept in the hands of Counsellor and other one is a consent form of the students which is more official and preserved in the files. Apart from individual counselling sessions we provide classes on Mental health, Motivation, Resilience, Positive Psychology and Human Formation to various batches occasionally.

Generally students come with various issues such as lack of motivation, internet addiction, peer pressure, broken family issues, anxiety disorders, academic challenges, problems regarding nuclear families, frustration of the parents, financial issues, education loans etc... These are some of the challenges students face and they seek counselling at proper time. We do some cognitive behavioral therapies and self-assessment tests so that they can trace their problems and solve it with proper timely guidance.
